What makes our school special?

School council met to discuss what makes our school special – This is a summary of what they said.

Our school is a special place where everyone is welcomed, valued and included. We are proud to be part of a kind, caring and diverse community where we celebrate our differences, build wonderful friendships and always help one another.

This is a special school because God is here with us. Christian faith is at the heart of our school, guiding us to show kindness, respect, love and compassion. We care for each other, look after our school and help those who are less fortunate.

We feel lucky to have wonderful teachers, a caring headteacher and supportive staff who help us learn, encourage us to be creative and teach us to never give up. We learn from each other, challenge ourselves and grow in confidence every day. We enjoy learning new things, from phonics and reading to discovering the world around us through science.

We love the exciting opportunities our school gives us! From swimming in our own pool and playing football on our pitches to exploring our library, enjoying school trips and spending time with friends in our big playground, there is always something to inspire us.

We appreciate our clean, safe and welcoming environment, our delicious school lunches and the improvements that make our school even better each year.
